

Hi,

I am your Blessed Robert Sutton Careers Adviser and welcome to our very first newsletter.

I will be doing these bulletins every half term, so look out for information on careers events, blogs and open evenings.

I have been privileged to have been advising students at the Academy for 12 years. I have seen the school grow from strength to strength and I am continually delighted to hear from ex-students that are now doing extremely well living happy, fulfilled, and successful lives.

My role at BRS is to see anyone who needs me no matter what year group you are in. Come and ask for support if you feel that you need it. I have an open door policy so you are welcome to make an appointment.

All students in year 11 will have been seen at least once before they leave.

We can discuss your ideas, research your choices and compare options. I can help with writing letters, job search doing a CV and much more. I can write you an action plan on what you should do next to research.

I have lots of leaflets and books so please feel free to take one. If you, your parents or any former students have anything of careers interest that should go in the newsletter please send it to me at jmcaulay@brs.srscmat.co.uk

Thank you for reading,

Mrs Julie McAulay

Leadership Pathways

Students have been given a fantastic opportunity to perfect the art of leadership. Mr Heath spoke to pupils a few weeks ago during assembly about the importance of taking themselves out of their comfort zone. Upon completion of two sessions that have been designed to equip students with the theoretical knowledge underpinning key leadership concepts, students apply to become a leader within the categories of Social, Spiritual and Academic. Leadership opportunities include Buddies, Sports Ambassadors, Prefects, Sustainability leaders, Faith in Action, Well-being Leaders, Anti-Bullying ambassadors, Student Council, Pupil Parliament And Literacy leaders. If successful in their application pupils complete a portfolio of evidence that at the end of the academic year will see them gain a SSAT bronze, silver or gold accreditation.

John 10:10 "I have come that they may have life and live it to the full."

Careers Journey for Y7 - 11

Go Green Day 1st October 2021

Climate change and environmental issues are huge in the news.

Here at BRS we want to make a difference to the planet too. Notice our Green spaces looking a little more interesting. Sign up for our Green Ambassadors and Gardening Clubs or just come and see me Mrs McAulay or Mrs Smith if you want to help out in any way.

Careers involving this type of work may include:

Arborist (trees), Landscaper and gardener, horticulturist, florist, animal care, zoo keeper, bee keeper, entomologist (insects) marine biologist, vet, conservationist, geologist, oceanographer, farmer, park ranger, fisheries, environmentalist, ornithologist (birds) vineyard manager, turf and greenkeeper.

Look on the National careers service to find out further information.

Highlight jobs – Oceanographer Go with the flow when you dive into deep sea expeditions to study marine ecosystems. Explore the underwater geological formations associated with plate tectonics and discover the secret lives of the sea creatures who live there. Oceanographers are also concerned about the effects of pollution on the sea and its inhabitants, so they dedicate their lives to going deep on the subject of ocean conservation.

Oceanographers get paid a whale of a salary: from £18,000 - £45,000
