

Seneca Platform for Parents

Accessing the Parent Platform

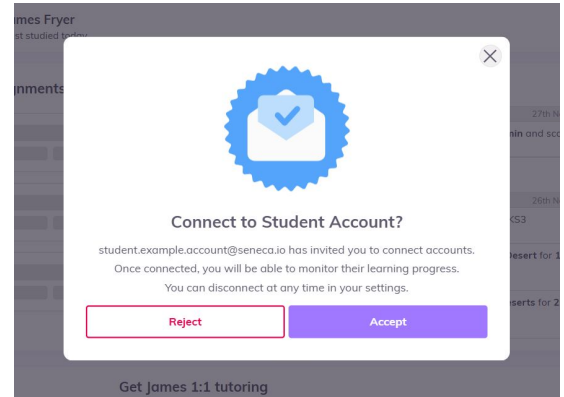

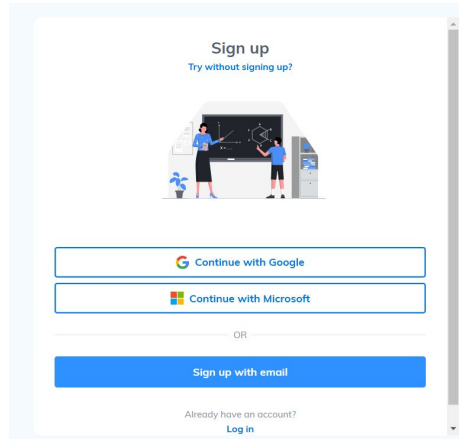

Seneca's free parent platform allows seamless communication between parents and teachers. Parents have access to viewing their child's study data, assignments and a live feed of activity on their parent platform. Teachers can also instantly send personalised Report Cards to parents!

You may have received an email from your child's teachers with an invitation to join. Click the link in the email to be taken through to the Seneca platform.

Sign up using the email address you received the invitation from.

You'll see a pop up asking if you'd like to connect to your child.

Click accept.

Homepage

Here, you can see an overview of your child's assignments and activity. If you're connected to more than one child, switch between viewing them by clicking the arrows next to your child's name.

3.5.9 Diffusion

Preview

This is a preview of James's homework assignment, so your scores and progress won't be saved. James will need to log in to their own Seneca account to complete their homework.

Diffusion

Diffusion can happen in liquids and gases. Diffusion is the movement of particles as they spread out from a higher concentration to a lower concentration.

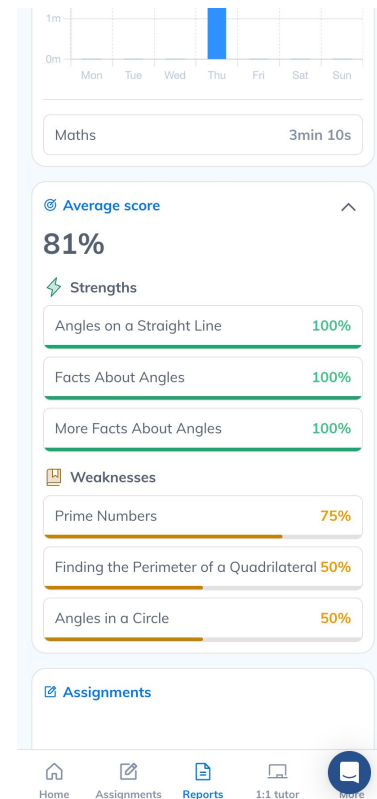

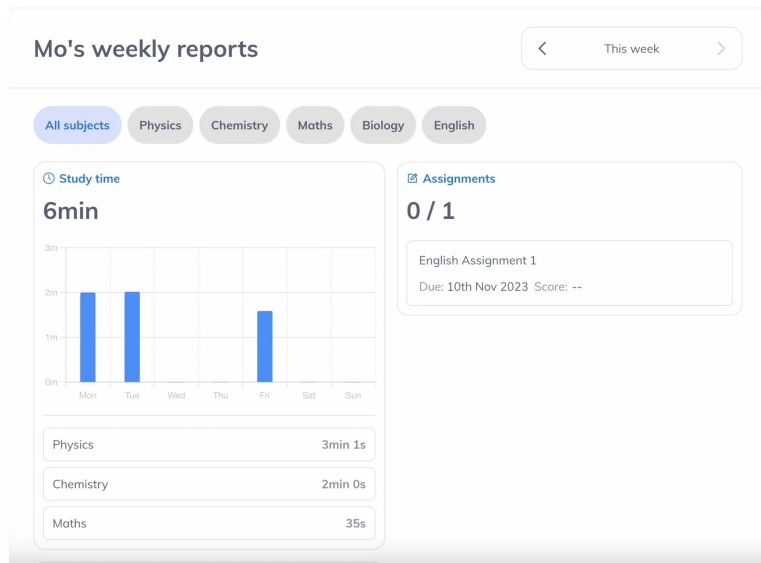

Concentration

- If there is a high concentration of particles, there are many particles in a given volume.

Tutors are matched to James's specific learning needs

Reports

The Reports page shows weekly and monthly reports with a breakdown of subjects, key strengths and key weaknesses.

Teacher Report Cards

Teacher Report Cards are accessed if you hover over your name in the top right and click “Teacher Report Cards”. You can then view report cards by subject and see detailed insights of your child's study and results.

01 Jan 2018 - 04 Apr 2024

Mrs Roman

Geography, Biology, French, Maths, Design Technology, Food Preparation & Nutrition, Spanish, English Language

Summary

Stephanie has completed 3% of their assignments.

Stephanie's average scores have remained consistent across the 30 assignments.
